Professional Summary

Results-driven Sr. Software Engineer with 4+ years of experience designing, developing, and deploying scalable web, mobile, and enterprise applications. Strong expertise in React Native, React.js, Next.js, Node.js, Python, REST APIs, Microservices, and modern frontend architectures. Experienced in building multi-role business applications, enterprise dashboards, workflow automation systems, and API-driven platforms. Skilled in collaborating with cross-functional teams to deliver high-performance applications with strong focus on UI/UX, scalability, security, and performance optimization. Currently pursuing an MBA in Project Management while leading development initiatives and mentoring junior developers.

Education

MBA in Project Management (Ongoing via distant learning mode)

DY Patil Vidyapeeth University, Pune

2025 – Present

Bachelor of Science in Computer Science

Indira College of Commerce & Science, Pune

Oct 2021 – June 2024 | Grade: A

Professional Experience

Senior Software Engineer – [iAssureIT](#)

Nov 2025 – Present

- Led end-to-end development of Mobile & Web applications as the sole developer.
- Integrated and managed both RESTful and GraphQL APIs.
- Handled deployment and release processes for Google Play Store and Apple App Store.
- Contributed to backend development, working with microservices architecture.

Software Developer – [WTT \(Wisdom Tooth Technologies\)](#)

Jan 2025 – July 2025

- Integrated third-party APIs and managed complete product development lifecycle.
- Developed scalable applications across platforms using MERN stack.
- Applied Agile methodologies and project tracking tools for sprint-based deliveries.
- Optimized performance and user experience across mobile and web platforms.

Software Developer – [Davzon](#)

Oct 2022 – Dec 2024

- Built complex multi-role applications for various industries including e-commerce and services.
- Leading and mentoring a team of 2–3 junior developers.
- Coordinated with design and QA teams to meet sprint goals and ensure timely releases.
- Successfully managed and collaborated with a small team during peak development phases.

Key Projects

PharmaIntel

- Developed **PharmaIntel**, an AI-powered platform for collecting and analyzing biopharma-related information from web sources.
- Implemented a **web crawler** to gather relevant information and structured the collected data for analysis.
- Integrated the **Google Gemini API** to enrich raw data with AI-generated insights, summaries, and contextual information.
- Built a responsive and user-friendly interface that works seamlessly across **desktop, tablet, and mobile devices**.
- Designed frontend workflows for presenting collected information and AI-generated insights in an accessible format.
- Worked **Solely** across the **frontend, backend, data-processing, and AI integration** layers of the application.

Charity Platform (Donation platform)

- Developed a donation and fundraising platform with secure payment processing using Cashfree.
- Built backend APIs and integrated payment workflows.
- Implemented push notifications, deep linking, and automated PDF receipt generation.
- Optimized user experience and transaction flow.

E-commerce Platform (Flipkart/Amazon Clone)

- Developed Admin, Vendor, and Customer panels using React-based technologies.
- Designed REST API integrations for inventory, order management, and payments.
- Delivered responsive web and mobile experiences.
- Implemented role-based access and business workflow management.

Skills

Frontend: React.js, React Native, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, NativeWind, Responsive Design, Mobile-First Development

React Ecosystem: React Hooks, Context API, Redux Toolkit, Zustand, React Query, TanStack Query, Component-Driven Development, Reusable Components, Custom Hooks

Mobile Development: React Native, Expo, Expo Ecosystem, EAS Build, EAS Submit, iOS, Android, Deep Linking, Fire base Push Notifications, Background Services, Native SDK Integration, App Store, Google Play Store

API & Real-Time: REST APIs, GraphQL, WebSockets, Server-Sent Events (SSE), Third-Party API Integration, Real-Time Data Synchronization

Backend: Node.js, Express.js, NestJS, Python, FastAPI, REST API Development, GraphQL, Authentication & Authorization, JWT, OAuth, Microservices, Kafka

Database: MongoDB, PostgreSQL, SQLite

Deployment: Vercel, Render, Play store, Appstore

Programming Languages: JavaScript, TypeScript, Python, Java, PHP, C

UI/UX: Figma, Visily.ai

Version Control: Git, GitLab

IDE: VS code, Antigravity, PyCharm, IntelliJ, x code

Soft Skills: Team Management, Leadership, Agile, Communication, Problem Solving

AI & GenAI: GPT, Claude, Claude Code, GitHub Copilot, Cursor, Windsurf, Gemini, DeepSeek, Ollama, Prompt Engineering, AI-Assisted Coding, AI Code Generation, AI Debugging, AI Refactoring, AI Testing, AI Documentation

Certifications

Coursera Certificate – <https://www.coursera.org/account/accomplishments/verify/CUKPYJK8PLG7>

Awards

1st Prize – Inter-College Web Design Competition
